Silage Baler Model 70

Model	9YDB-70	Supporting power kW	11/0.55/0.37/3
Bale weight kg	150-180KG	Production efficiency	50-65 bales/h
Rated speed rpm	350	Filming efficiency	22S/6 layers Bundle
Bale size mm	720*700	Air Pump Capacity	0.36 m ³
Wallboard material	pickled cold steel plate	Opening/Closing	Manual/Automatic
Film cutting method	automatic	Wall Panel Thickness	6+6 mm
Bundling method	automatic	Film Drawing	Automatic
Number of aluminum rollers (pieces)	29	Film Wrapping Machine Reducer	Servo Motor
Number of film layers	PLC adjustment of distribution box	Power Distribution Box Operation	Manual/Automatic
Bundling material	net	Machine Weight	1100 kg
Hemp rope bundling	adjustment of distribution box	Conveyor Belt Connection	Chain
Density adjustment	motor current	Machine Dimensions	4500 x 1900 x 2000 mm
Aluminum roller bearing	external	Frame Steel Pipe	5 x 5 mm
Bearing model	aluminum roller bearing model FL-206 model	Metal surface processing	Plastic Spraying
Feeding conveyor belt mm	700*2100	Packaging/Returning	Automatic
Aluminum roller material	aluminum alloy casting	Chain Model	Zhenghe 630 Industrial Chain
Bundle size mm	Φ720*700	Gear Process	High-Temperature Quenching
